

[ACISCO](#) company (ACISCO OÜ) was founded on 10 April 2007 and based on Estonian private capital.

The birth of this company was a result of long evolution from the days, when only one enthusiast began provide IT services for individuals and small companies.

But, when number of customers begun to grow, this man decided, that is time to found company to provide more services and work with companies from middle and big business, as well as with government organizations.

Today we have quite stable position on IT market and working with many companies from different countries, including Estonia, Russia, some of the European countries and USA.

We maintain a high level of provided IT services, including system administration, hosting and web-design. We are listening carefully to all of our partners with their wishes.

Our experience, together with new technologies and professionalism of our staff, will make Your business more profitable and Your mood is more positive!

We are always glad to work with You!
